

# Create a clear vision with Glass Vice

Create a clear vision and  
bring the view to you...

**Glass Vice®** Products design and manufacture frameless glass solutions to compliment and enhance landscape, residential and commercial architecture.

Manufactured from the highest quality materials, to withstand all weather conditions, Glass Vice® Products provide an aesthetic finish that is guaranteed to last.

Our products help create a clear vision for balustrade, staircase, pool fence and glass fence solutions.

The patented design of Glass Vice® Products significantly reduce the installation time, as no holes are required in the glass, making it an extremely cost effective frameless glass solution.

A flexible, high quality solution for most building requirements that is fully certified in both Australia and New Zealand for residential and commercial applications.

# Create a clear vision

GLASS  
VICE®

## Insist on the clean, contemporary, Glass Vice® look...

- › Clean, unobtrusive and contemporary finish.
- › Latest design for residential and commercial balustrades.
- › Eliminates mould and discolouration as glass floats above floor surface.
- › Ideal for swimming pool fences.
- › 12mm & 15mm toughened safety glass installed.
- › A range of brackets providing a solution for every location.
- › Patented design cuts installation time creating an extremely cost effective solution.
- › Manufactured from the highest quality stainless steel to guarantee aesthetic finish.

# Landscape Architecture

Uninterrupted panoramic views of your pool. Pure bliss...

Maintain an uninterrupted panoramic view of your pool and surrounding area with a Glass Vice® frameless pool fence. Meeting all legal and regulatory requirements, your new Glass Vice pool fence will enhance the look and value of your property, as well as the enjoyment of your outdoor living and entertaining space.

Glass Vice can also be used to provide wind breaks and other architectural features outdoors.

# Residential Architecture

Clean, contemporary,  
incomparable...

Uninterrupted views, timeless, safe and weather resistant. Glass Vice® are the ideal design solution to enhance architecture and your lifestyle. Balustrade options available for decks, balconies, patios, staircases, steps, garden or retaining walls and even just as a wind break.

Glass Vice has also developed a range of handrails suitable for residential and commercial purposes that meet all regulatory requirements and are simple to install.

Glass Vice is a "no holes in the glass" balustrade solution that is cost effective, sleek and contemporary in design.

Glass Vice® ...Simply a great option for any location.
