CANTILEVERED CHANNEL FIXING FRAMELESS GLASS BALUSTRADES

ClearVista Surface Mounted Balustrade Channel

ClearVista is a slim profile aluminium base channel system which is top mounted to timber, concrete or steel substrates and the covers can be powder-coated to a specific colour.

- Sleek design, no grout required.
- Installation and maintenance can be achieved from the deck side, which makes it ideal for situations where scaffolding may have usually been necessary.
- Suitable for both internal Balustrades and Pool Fences.

Tilt-Lock Base Channel System

A heavy duty aluminium channel system for Balustrades and Pool Fences available in Top Mounted, Side Fixed and Recessed Models. Due to robust engineering and the ability to suit 12mm to 21.52mm glass, this system is ideal for use in apartments and commercial projects.

- Manufactured from architectural grade aluminium with powder-coated or anodised covers.
- The 30mm tilt adjustment, back and forward, reduces issues of uneven substrates.
- Tilt-Lock Base Channel provides a sleek linear design for Pool Fencing and Balustrading.

CANTILEVERED CHANNEL FIXING FRAMELESS GLASS BALUSTRADES

Cuboid Face Fixed Balustrade System

A discreet and concealed fixed system, Cuboid Face Fix provides a clean and contemporary option for fixing Balustrades and Pool Fences. The advantage of this system is the continuous aluminium cover plate which conceals all fixings and can be powder-coated to match the building facade for a seamless look.

- An aluminium system for face-mounting balustrades and pool fences with all fixings concealed behind a slim profile cover plate to provide a clean, flush finish.
- Strong structural strength is achieved through the continuous aluminium extrusion.
- Silver Pearl powder-coat is the standard finish, however, it can be anodised or custom powder-coated to suit.
- The system is able to be attached to timber, concrete and steel so it can accommodate various applications within the same site.
